

Agro Z<sup>®</sup> is the umbrella brand for all products dedicated to Agriculture and Horticulture, which are manufactured by A to Z Textile Mills Ltd. and Polyfoam Ltd., based in Arusha, Tanzania.

**AgroZ<sup>®</sup> Net**

AgroZ<sup>®</sup> Net is recommended for building low cost GREEN-HOUSES and NET-HOUSES that helps to increase vegetable yields up to 40%, while reducing pesticides use up to 80%.

AgroZ<sup>®</sup> Net is a High Density Polyethylene (HDPE) net for microclimate modification and the exclusion of insect pests in the protected cultivation of horticultural crops – vegetables, fruits and ornamentals.

AgroZ<sup>®</sup> Net comes in two mesh sizes of 0.4 mm and 0.9 mm.

AgroZ<sup>®</sup> Net 04 is recommended for use in Tomatoes, Sweet Pepper, Cucumber and all seedlings production.

AgroZ<sup>®</sup> Net 09 is recommended for use in Brassicas (Cabbages, Broccoli, Pak Choi, etc.), other Leafy Vegetables, French Beans and Watermelon

AgroZ<sup>®</sup> Net 04 and 09 comes in a roll size of 5.5 m x 30.0 m.

**AgroZ<sup>®</sup> Shade Net**

AgroZ<sup>®</sup> Shade Net providing 55%, 75% and 90% shade are used in ornamental horticulture, coffee seedling production and in vegetable production.

AgroZ<sup>®</sup> Shade Net comes in a roll size of 2 m x 100 m

AgroZ<sup>®</sup> Shade Net covering a coffee seedlings nursery

**AgroZ<sup>®</sup> Crate**

AgroZ<sup>®</sup> Crates are Stackable, Nestable, Strong and durable, made from food grade HDPE plastic. Treated for UV protection.

Weights 2 kg when empty.

External dimensions are: L 63 cm x W 38 cm x H 30 cm.

Can carry 18 kg of French Beans or 25 kg of Tomatoes.

AgroZ<sup>®</sup> Crates comes in many basic colors.

Once nested they occupy only 50% space, during transport or storage when empty

**AgroZ<sup>®</sup> Ground Cover**

AgroZ<sup>®</sup> Ground Cover is a thick woven plastic cover, treated for the UV protection. Used for the control of weeds. Preserves moisture in the soil.

A great tool for fruit and vegetable crops. Can be used for 3 - 5 years.

AgroZ<sup>®</sup> Ground Cover comes in a roll size of 1.6 m x 200 m.

**AgroZ<sup>®</sup> Bag**

AgroZ<sup>®</sup> Bag is a water-resistant and gastight storage solution for a vast range of dry agricultural commodities. It comes with an inner liner and an outer woven polypropylene (WPP) raffia sack. Made of multi-layer barrier properties, it preserves commodities for a long period of over a year without the risks of moisture gain, post-harvest storage infestation and fungal growth.

AgroZ<sup>®</sup> Bag stops mold growth, decreases food losses and aflatoxin contamination.

AgroZ<sup>®</sup> Bag is recyclable and pesticide-free hermetic storage technology, that preserves the quality and germination capacity of stored grains.

AgroZ<sup>®</sup> Bag is recommended for the storage of all grains and pulses, primarily: Maize, Dry Beans, Peas and also Rice, Sorghum, Millet, Soybeans, Seeds, Wheat, Cocoa, Coffee, etc.
